

Two pairs of opposite angles of the parallelogram are equal in measure.

평행사변형의 두 쌍의 대각의 크기는 각각 같다.

(Two pairs of opposite angles of the parallelogram are equal in measure.)

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.

Two pairs of opposite angles of the parallelogram are equal in measure.
