With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.

주어진 조건
(Given Condition)
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
With a directrix and a focus when a ray starting from the focus is given, draw a point on the ray passing the parabola.
